

KEE ANCHOR®

Portable Fall Protection for Rooftop Safety

ABOUT KEE ANCHOR®

Kee Anchor® is a portable, non-penetrating deadweight anchor system that provides temporary fall protection on flat and low-slope rooftops. It's ideal for short-term maintenance tasks at height. The system installs quickly, repositions easily and removes without damaging the roof surface. Kee Anchor is a trusted solution for contractors, maintenance crews and facility managers who need secure tie-off points without permanent fixtures.

WHY CHOOSE KEY ANCHOR®?

- Improves fall arrest performance by reducing travel distance during a fall
- Maximizes grip with more than 100 suction cups molded into each rubber-bonded weight
- Installs easily with basic hand tools
- Protects roof integrity with no drilling, welding or permanent fixtures required
