

# KEE DOME®

Fall Protection for Every Skylight

## ABOUT KEE DOME®

Kee Dome® is a modular, freestanding fall protection system designed to create a secure barrier around skylights, roof lights and dome lights. The system delivers maximum safety without compromising roof integrity, using galvanized steel components and recycled PVC bases to create a compliant barrier around hidden rooftop hazards.

## WHY CHOOSE KEY DOME®?

- Fits various skylight sizes and roof types; works for permanent or temporary installations
- Installs quickly with simple hand tools
- Galvanized steel resists corrosion and performs reliably in harsh weather
- Needs minimal maintenance; annual inspections help ensure optimal performance
- Low-profile frame preserves rooftop appearance and lets in natural light
