

KEE HATCH®

Guardrails for Safe Hatch Entry and Exit

ABOUT KEE HATCH®

Kee Hatch® is a modular, freestanding fall protection system engineered to safeguard roof hatch access points, even when the hatch is open. It surrounds the opening with a durable guardrail to ensure safe, compliant transitions between ladder and rooftop. Kee Hatch uses a weld-free construction that preserves the roof membrane and delivers permanent fall protection.

WHY CHOOSE KEY HATCH®?

- Offers a steady handhold for safer ladder access
- Meets OSHA fall protection standards for hatch openings
- Installs quickly with a modular, weld-free design
- Fits all major roof hatches and fire vents with multiple configurations
- Maintains a clean look with a low-profile, corrosion-resistant design
